

BUILDING THE FUTURE OF HEALTHCARE IN KZN

We're proud to showcase our work on a new hospital in KZN (see image), highlighting Echo Durban's commitment to quality and collaboration.

The intricate slab work you see is a result of close partnership with local architects and engineers. Here's how we collaborate:

- **Early Involvement:** We join design discussions early to optimise precast solutions for the project's specific needs.
- **Tailored Design:** We adapt our slab designs to meet architectural visions and engineering requirements, ensuring seamless integration.
- **Technical Expertise:** Our engineers provide on-site support, ensuring smooth installation and addressing any technical challenges.
